ppy: per policy year | For full details on what is and isn't covered, alongside any limitations, please refer to the Corporate HealthCover4*life* handbook

The important bits – a must read!

Like all insurance plans there are exclusions and limitations to cover. The below are the most significant:

- Treatment of medical conditions that existed, or you had symptoms of, before joining
- Treatment of ongoing, recurrent and long-term conditions (also known as chronic conditions)
- Charges when treatment is received outside of our Directory of Hospitals
- General dental procedures
- Routine pregnancy and childbirth.

For full details please refer to the Corporate HealthCover4*life* handbook.

Underwriting

All plans are based on moratorium underwriting – this means that for any medical condition that you've had in the last five years, prior to your join date, where you've experienced symptoms, sought advice, consultation or treatment we won't cover you for those conditions until:

You've been a member for two years in a row, and you've been completely trouble-free from that condition
for a consecutive two-year period after you join. Your cover will then be subject to the terms and conditions
of the healthcare plan you take out with us.

For full details regarding how moratorium underwriting works, please see section 3 'How your membership works' of the Corporate HealthCover4*life* handbook.

Excess

The following excess: £100

Excesses are applicable to each person on the plan who claims, each plan year. This means that a new excess will become payable where treatment continues into a new plan year.

For full details regarding how the excess works, please see section 5 'Managing your membership' of the Corporate HealthCover4*life* handbook.
