

11 August 2011

**COLLEGE NOTICE**

**KENNEDY INSTITUTE OF RHEUMATOLOGY**

---

Following the signing of an agreement by the College and the University of Oxford on 1 August 2011, staff in the Kennedy Institute of Rheumatology have transferred to the University of Oxford. From this date the Kennedy Institute of Rheumatology has ceased to be an Institute within Imperial's Faculty of Medicine.

The transfer follows consideration by the Trustees of the Kennedy Institute of Rheumatology Trust about their support for funding rheumatology research.

Staff in the new Oxford institute will operate from the Aspenlea Road premises for the immediate future until their new building in Oxford is completed and available for occupation.
