## ELIGIBILITY VS CONSENT COUNT BY SITE

## RECRUITMENT STATUS COMPARISON BY CLINICAL SITE

## Additional Qualitative Data Collection - Patients Feedback

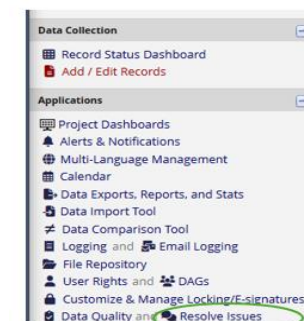

Thank you to all sites that have submitted completed patient questionnaires. Please continue conducting brief informal interviews with 5–6 STAR participants to gather insight into patient's experiences. The questions template list was shared via email and is also attached to this Newsletter. These questions can be asked during routine follow-up calls, no extra scheduling required. 😊

We appreciate your ongoing support!

## OPEN DATA QUERIES

Please review and respond to all **open and unresolved data queries** associated with your site. Some queries have been outstanding for **over 200 days**, and it is essential that these are addressed promptly to maintain data integrity and ensure timely resolution. To assist with this:

- Navigate to the **'Resolve Issues'** section in REDCap

- Or access queries directly through the **relevant field in the patient record**

When resolving a query, kindly reply using the note **"data updated"** or **"data resolved"** so that our system can track it appropriately and mark the query as closed.
