

# 5 THINGS!

3<sup>rd</sup> July 2023

## THANKS & GOODBYE TO DAN! ☹️

Dan Clode's last day at the College is this Friday. We'd like to thank him for his excellent work driving our iPSC work, he's helped so many of us throughout his time at the College. There will be leaving drinks at Dear Grace from 5.15pm on Friday, come along and wish him all the best for his next role at Hoxton Farms! 😊

## Upcoming grants

Celia Monteiro Domingues has taken over from Paula Kirby as the new Research Manager for the Department. She will be working alongside the section managers to support funding applications. Celia is your first port-of-call for eligibility queries, internal process queries, application requirements, letters of support, peer review, mock interviews etc.

## Reminders

### Imperial Technicians' Festival 2023

This year's Technicians' Festival will be running from 10 to 14 July, with events taking place at White City, South Kensington and online.

This is an opportunity to focus on your development, learn something new and network with technical colleagues from across the College. Highlights include the Technician' Conference at White City, White City facility tours, Career Development workshops, and a session on laboratory sustainability.

Sign-up on the Technicians' Portal of the College website.

## Tip of the week!

### Cyber Security

With recent cyber attacks on other institutions, we must remain vigilant against cyber threats and scams. It is important that we are all aware of cyber security and our responsibilities when it comes to protecting accounts and data..

ICT security helps everyone at Imperial stay safe online.

You can find lots of helpful resources on cyber safety on the College website -
