

Seasonal Blue Tit nesting project at Silwood Park, spring 2023

We have a field assistant position to work in the breeding ecology of Blue Tits between April and June 2023. The role involves coordination of fieldwork with a team of students and staff to monitor blue tit nest boxes and oak phenology at Silwood Park campus, Department of Life Sciences, Imperial College London, Ascot, Berkshire, UK, SL5 7PY. Further information about the project can be found in www.imperial.ac.uk/silwood-park/research/silwood-lte/blue-tits/

Experience with fieldwork and bird ringing is desirable. Fieldwork is expected to be intense particularly during the peak of breeding season and work can go beyond office hours and include weekends.

We offer a highly competitive hourly rate dependent on the level of experience.

Please apply before Friday 10th March with a CV and cover letter that includes the contact information of two referees send to Dr. Catalina Estrada, Ecological Analyst and Facility Manager (c.estrada@imperial.ac.uk)
